Jack O'Brien Loses Another Fight. PHILADELPHIA, July 29 .- Judge Sulzberger to-day dismissed the suit brought by foreclosure proceedings which have been brought against the property of the former fighter and promoter. The American Athletic Club, the name of the organiza-tion which promoted the fight game here that failed to pay after O'Brien confessed to his faking with other fighters, was run by O'Brien and Whitty as partners. When O'Brien filed a petition in bankruptcy Whitty at once foreclosed a mortgage of \$10,750 which he held against the club property. O'Brien then sought his injunction claiming that he had been coerced by his partner into signing it so as to de-traud the other creditors.

CUP RACES PUT OVER MONTH

British Club Accedes to Challenger's Request First Race Sept, 10,

Special Cable Despatch to Tak Sus. LONDON, July 29.—The Royal Motor Yacht Club has agreed to postpone the races for the British international trophy races for the British international trophy for one month. This was done at the request of the Motor Boat Club of America. That club cabled last week asking for a postponement of four weeks because it had been unable to get a team to send abroad, all its boats having had engine trouble. France had entered in the international race and it was necessary to get the consent of the French clubs to the postponement. This consent was received to-day. The date now set for the first international race is September 10.

The date originally set for the first race was August 8 and to have competed in that race it was necessary that the American boats should have been shipped last Saturday. In all the trials held by the Motor Boat Club for the purpose of selecting three challengers the boats met with mishaps. Only one, the Ankle Deep, raced without any trouble, but Count Mankowski had promised to race for the gold challenge cup, representing the Lake George Yacht Club, and so could not send his boat abroad. The gold cup races are to be held this week and Ankle Deep will now be eligible to go abroad.

The boats now racing on Lake Erie will be watched and some will come for these new trials here. The Peter Pan V. with her Van Blerck motor, is in fine shape and won the international challenge
